**Subject:** Re: Biweekly with Denise and Benita

Here you go:

Bristol Bay

- On 12/9, Trout Unlimited and the Wild Salmon Center will participate in a Q&A session with EPA on their soon to be released report entitled: Bristol Bay's Wild Salmon Ecosystem and the Pebble Mine: Key Considerations for a Large-scale Mine Proposal. They have provided EPA with an advance, embargoed copy of the report for our review.
- On 11-30-11, US Rep Reichert - R (WA) sent a letter to LPJ supporting EPA's Bristol Bay Assessment. Reichert highlights the 827 Washington State residents that hold BB commercial fishing permits and notes that "any decisions made regarding future development projects should be considered carefully and supported by sound scientific review.
- PLP did not share its baseline data with EPA as promised on 12/6 and has not set a new date but Pebble's CEO is "hopeful" that it will be delivered by end of year.
- Important Upcoming Dates:
  - o Late December/Early January – EPA will publish a Federal Register Notice soliciting public input on the assessment's Peer Review Panel.
  - o 1/25-27 – EPA BB team meets in Seattle to discuss issues associated with preliminary draft assessment
  - o 1/31-2/3 – PLP hosts its interagency data roll out meeting in Anchorage (originally scheduled for October 2011).
